## 2022-23 NEW TEXT

### Credit for Life Experience

Wichita State University encourages students to seek credit for knowledge they may have acquired through life experience. In order to receive credit for life experience, students must be fully admitted to WSU. Credit for life experience is granted only when a student's learning from life experiences duplicates the content of a course described in the catalog. The faculty member who teaches the course must certify that the life experience is the same as the content of the course. Students pay for Life Credit on a course by course basis.

Credit for life experience is posted to a student's transcript as transfer credit as soon as the paperwork is received/validated and posted to the academic record by the Registrar's Office. Credit for life experience will not be awarded for duplication of credit or to replace course grades.

**Badge Program**

Wichita State University's badge program was designed with the working professional in mind so coursework is developed around professional development and structured in smaller units. In most cases, information is organized into 0.5 credit hours classes (one 0.5 credit hour class equates to one badge) which also makes the workload manageable for someone who works a full-time job. While some badges may be offered in a classroom setting, many are also offered online. In some cases, badges may be applied towards requirements for a degree.

Badges are credit courses that comply with the definition and assignment of credit hour policy and appear on a transcript indicating that academic work was successfully completed. Students will receive a grade of either BG (badge earned) or NBG (no badge earned) when the class ends.
